

How to join Mera X

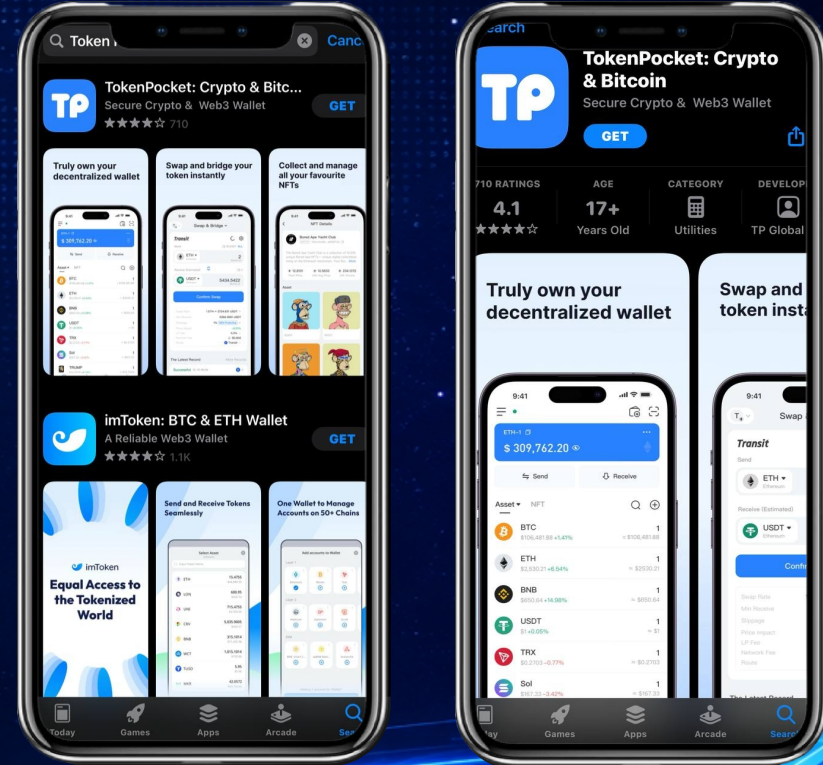

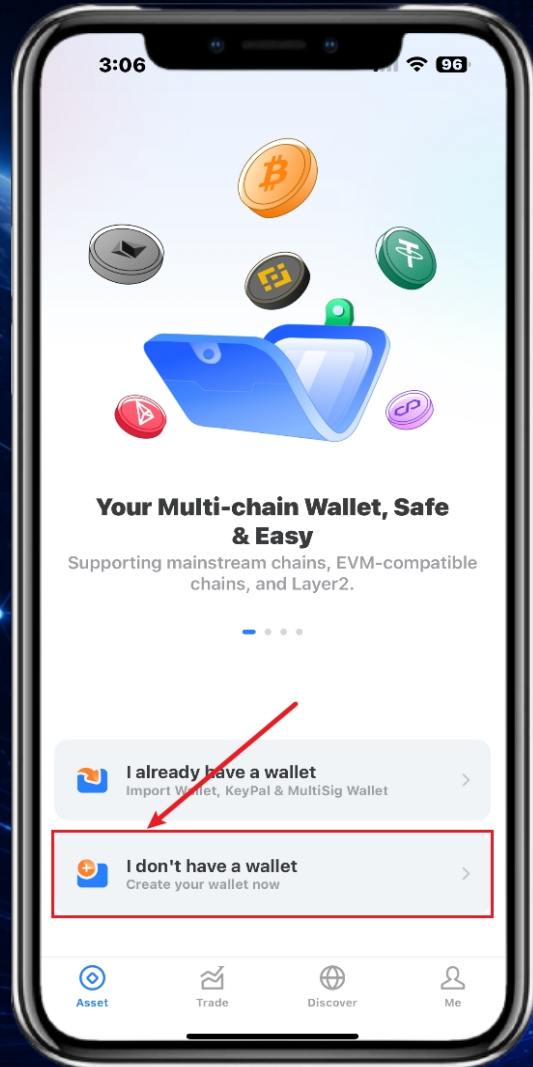

01

Download and create a wallet

First, you need a blockchain wallet.

- Download the official TokenPocket or other official blockchain wallets from Google Play, Apple App Store, or other app stores.
- Here we will take downloading the TP Wallet as an example.

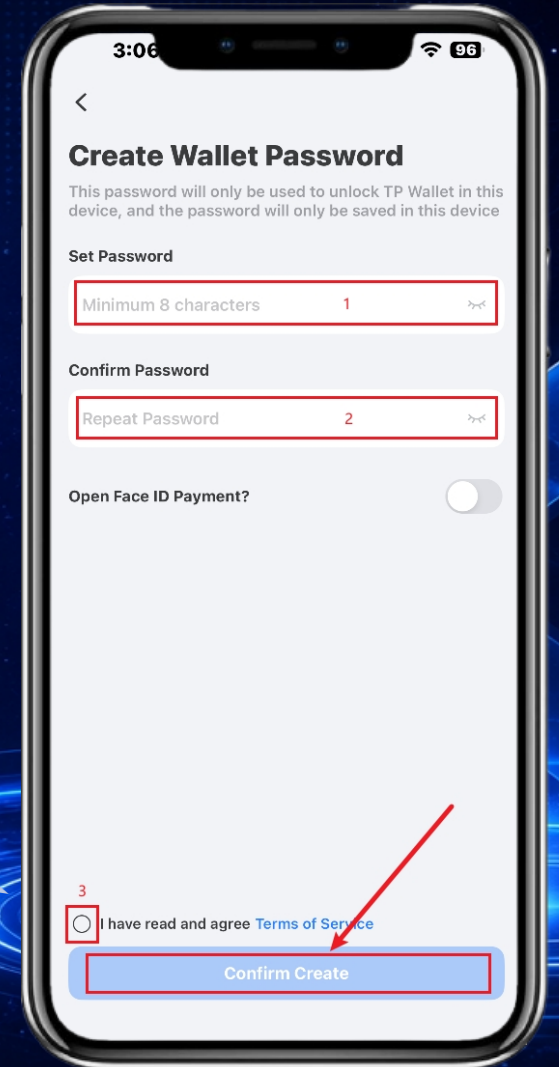

01-Create a wallet

Open the app and tap "I don't have a wallet".

02-Set password

Set your login password and click "Confirm Creation".

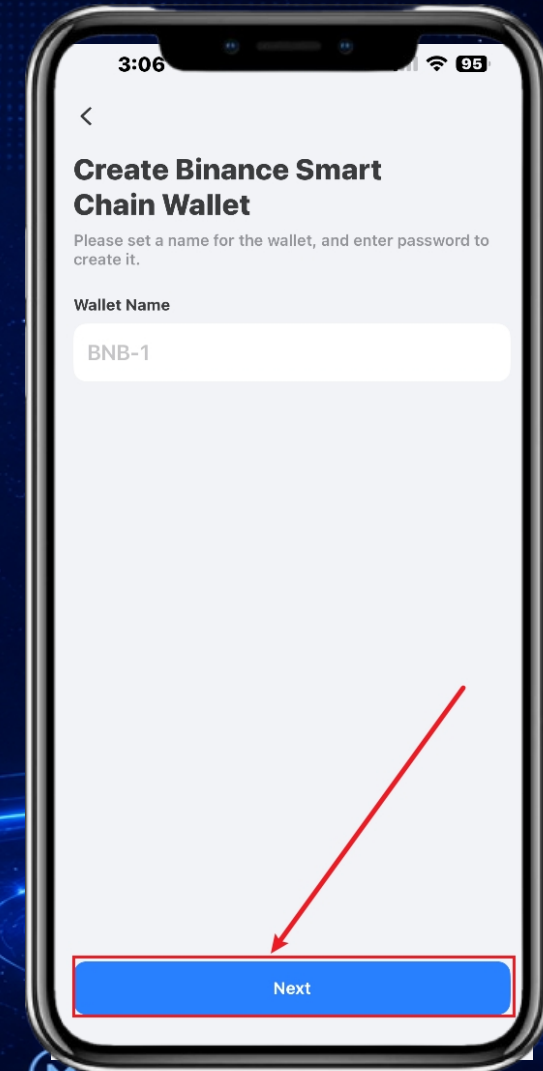

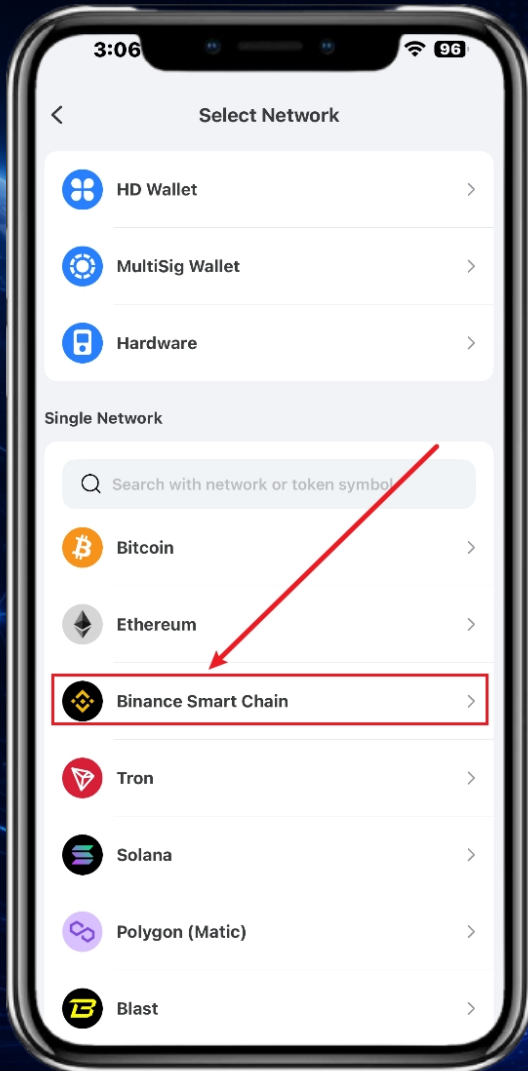

03-Choose a blockchain network

Choose a blockchain network
Here we choose the Binance Smart Chain network

04-Create your own wallet

- Create a wallet name (you can skip this step)
- Click [Next]

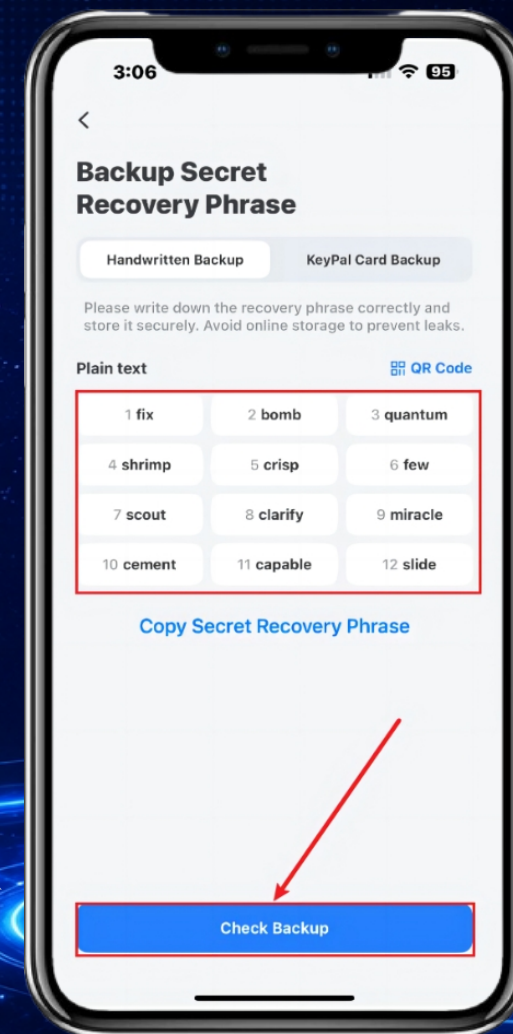

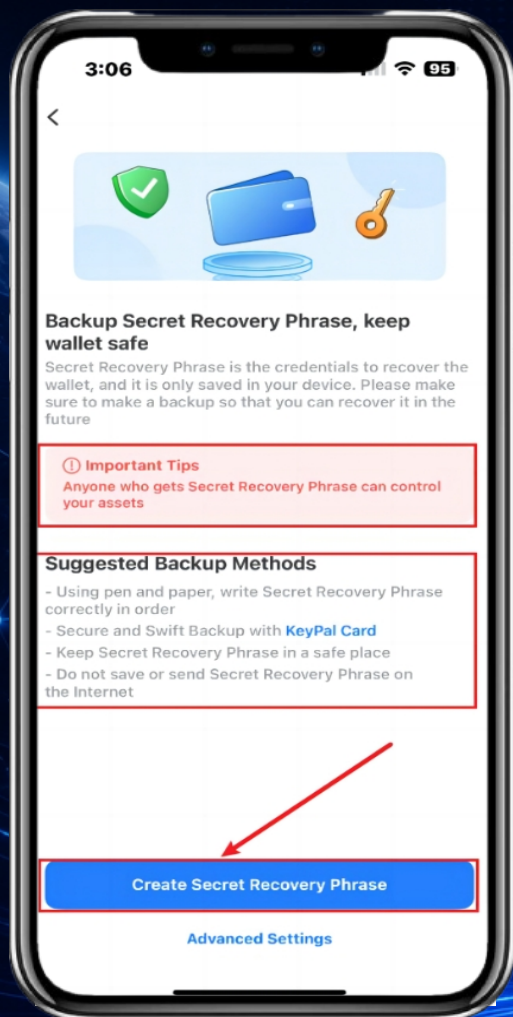

05-mnemonic word confidentiality principle

On this screen, we can see advice from TP Wallet:
Write down our mnemonic phrases in the correct
order with pen and paper and keep them safe.

06-Generate mnemonic words

Mnemonic phrases are like a combination of your
bank account number and password; never
disclose them to anyone in any way.

07-Copying mnemonic words

1. Click **【Create Secret Mnemonic Phrase】**
2. Write down the 12-character mnemonic phrase in order, then click **【Check Backup】**
3. Click the 12-character mnemonic phrase in order, then click **【Done】**

Important Note

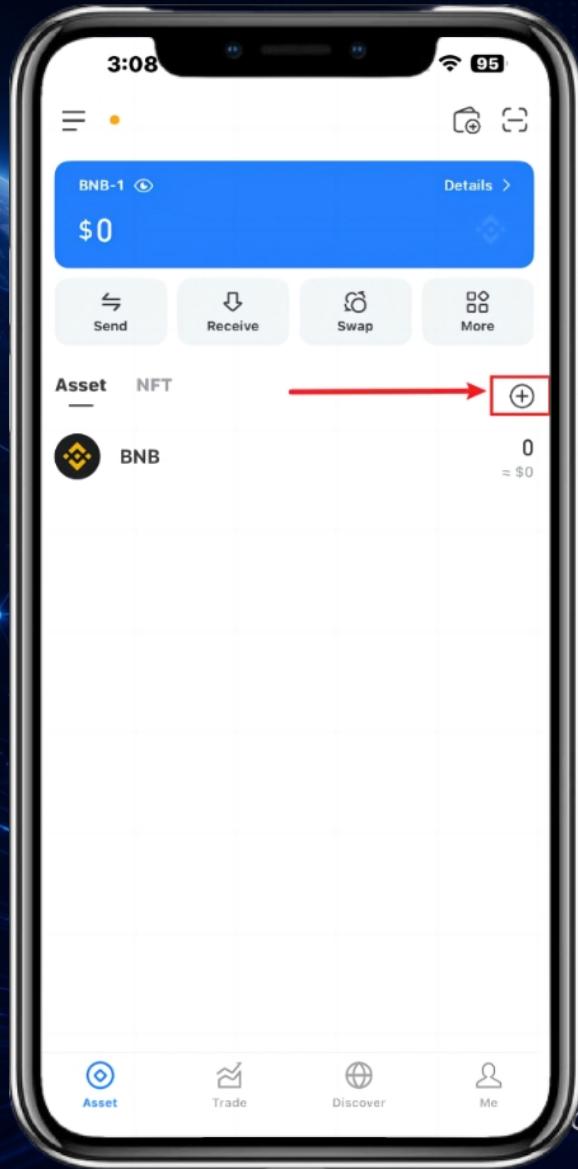

Copy the mnemonic words in the correct order.

Do not transmit mnemonic phrases over the internet.

Do not reveal your mnemonic phrase to anyone.

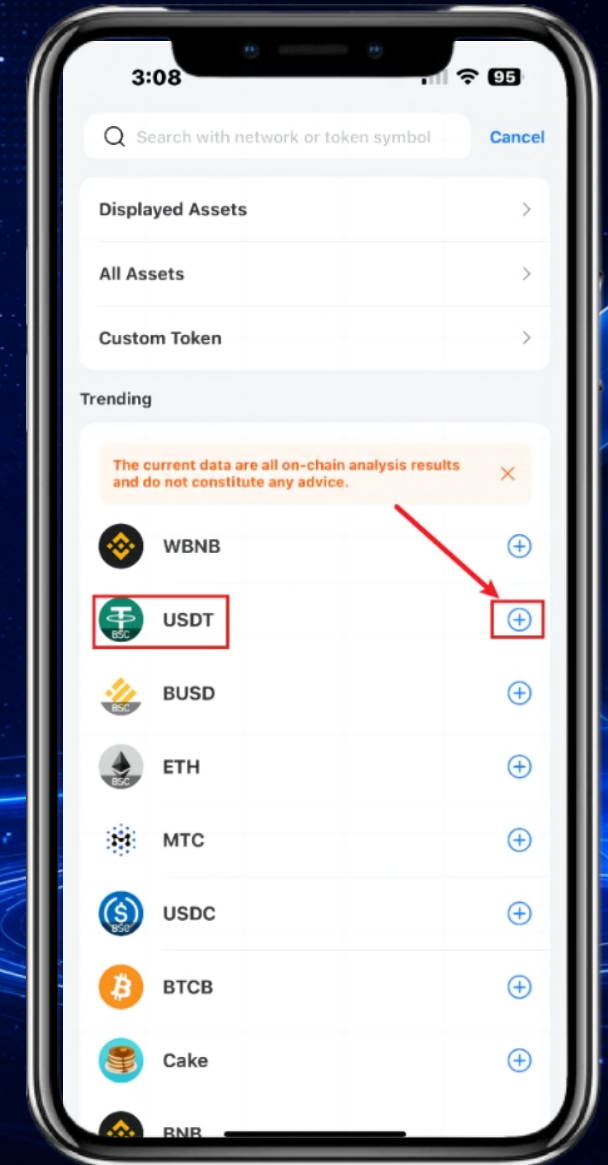

08-Add tokens

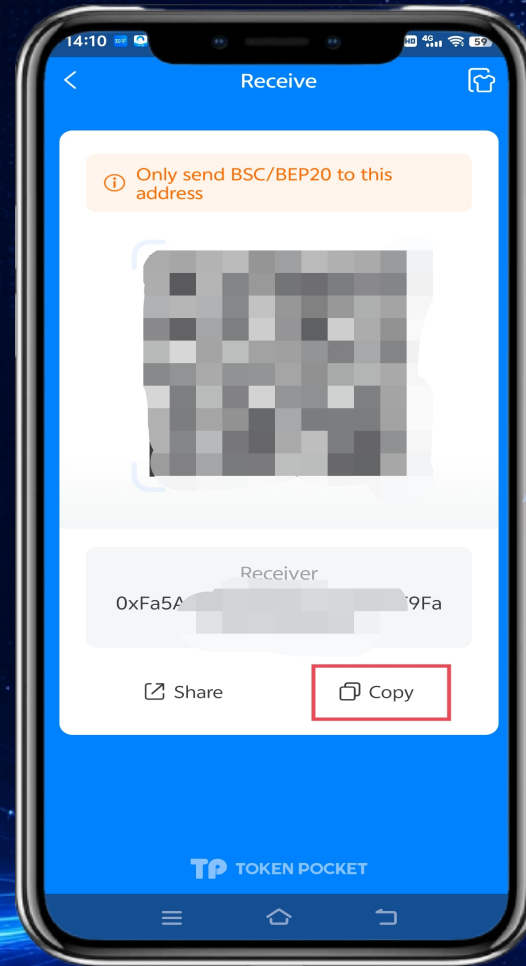

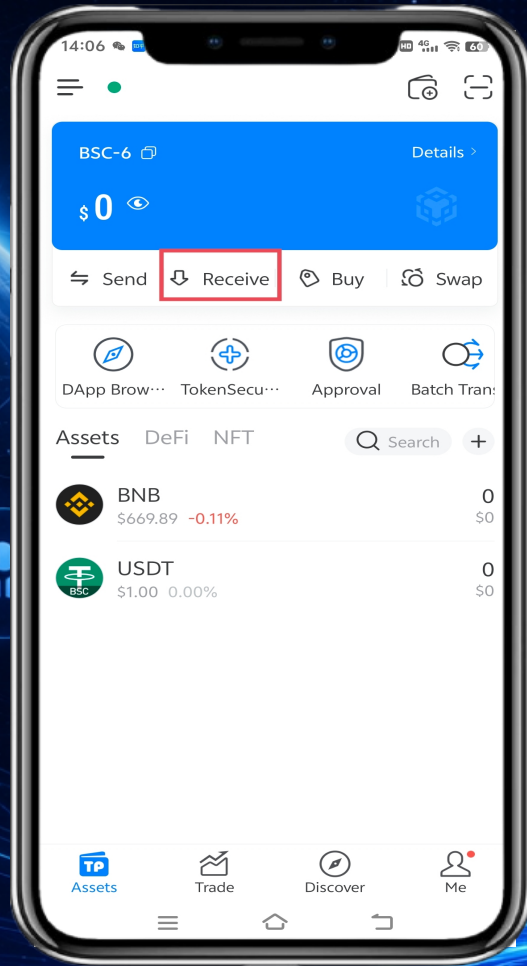

- In the Binance Chain wallet, generally speaking, in addition to having BNB, you'll also need some USDT to participate in any platform.
- On the wallet's homepage, click the "+" icon.

09-Select token

- Enter the token addition page, USDT/USDC tokens
- Click the "+" button.

10-Wallet top-up

- Click on the "Receive Payment" button above.
- You can transfer funds to your wallet via the Binance Chain channel through other methods.
- Click [Copy]
- You can copy the payment address.

02

Register a Mera X account

Community

Governance

Innovation

Sustainability

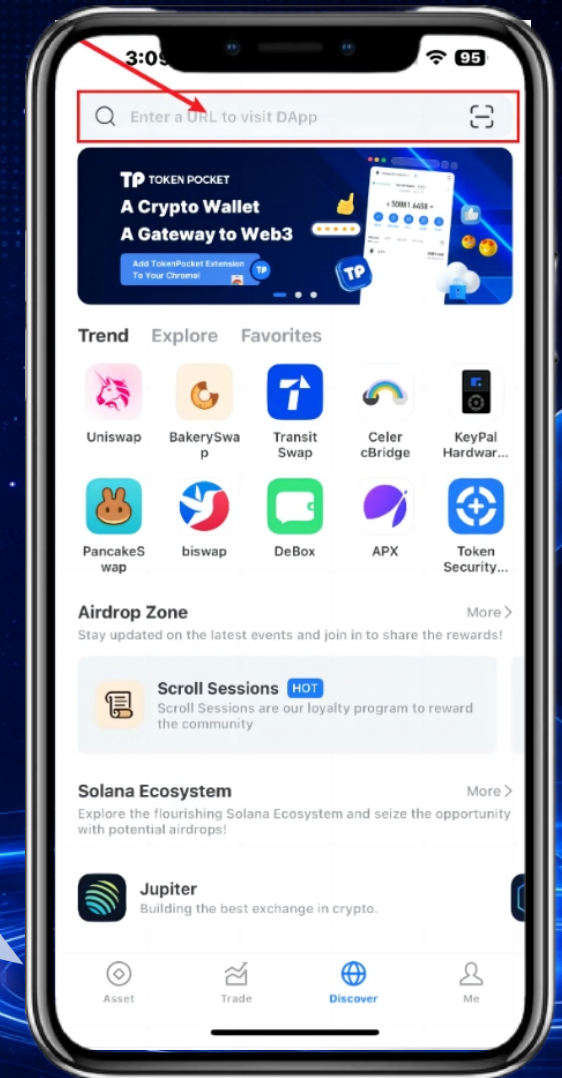

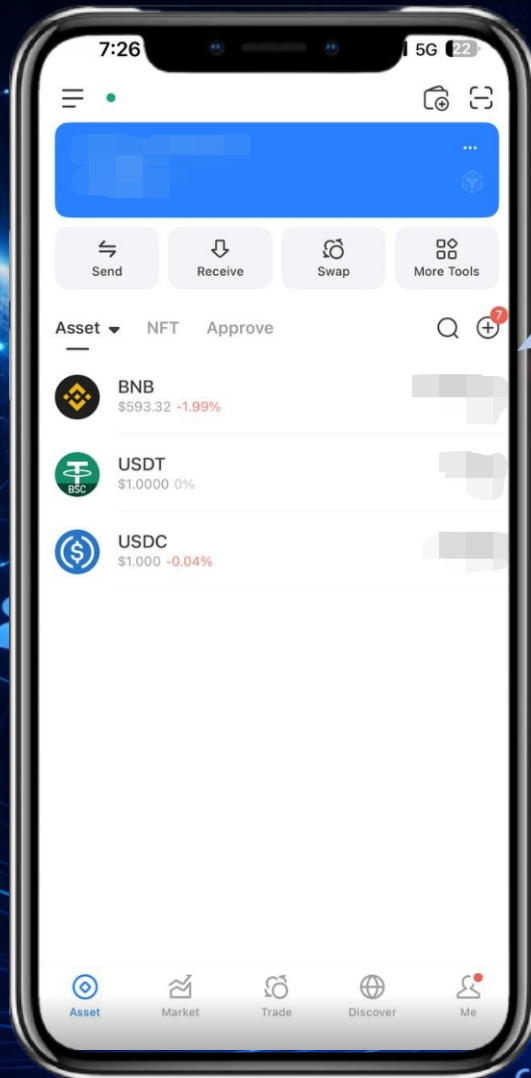

Value Flow

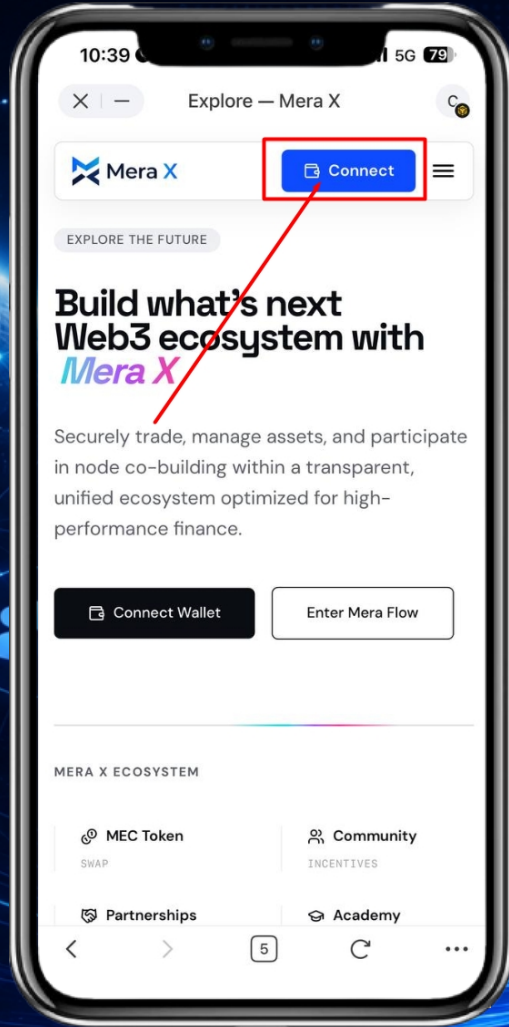

01-Enter the browser interface

- In your wallet interface
- Click on the "Discover" button below.
- Access the wallet's browser page

02-Paste DAPP link

- Paste the [invitation link]into the search box above.a
- [Invitation Link] From your mentor

05-Link Wallet

- After entering Mera X,
- Click the "Connect Wallet" button in the upper right corner.

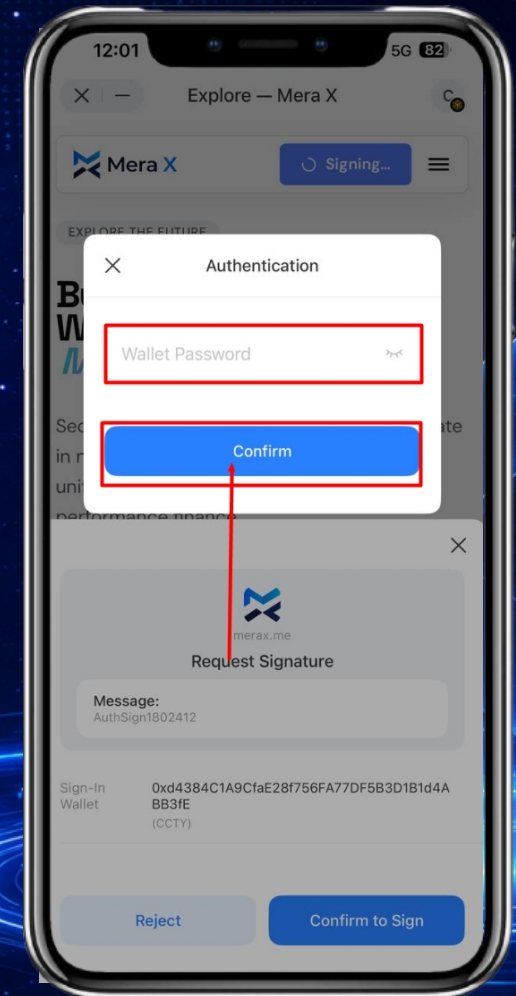

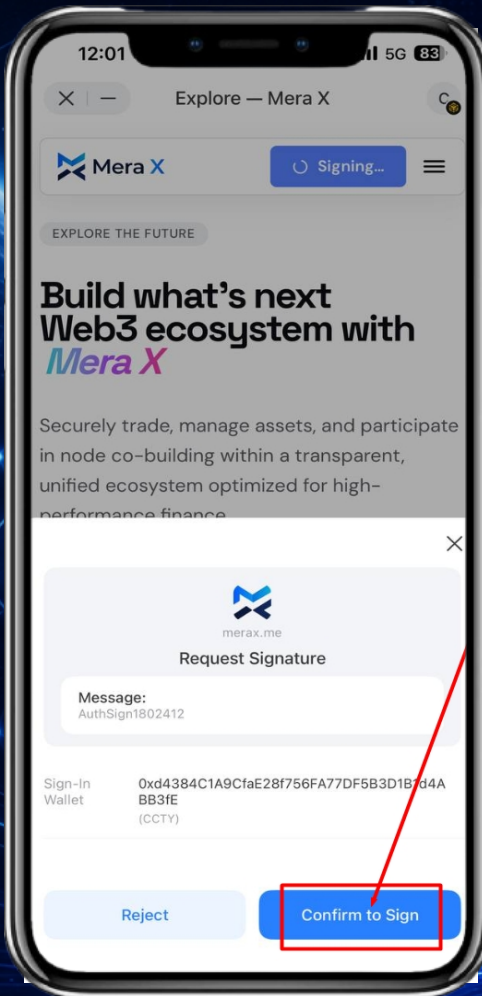

- Linking your wallet is the most crucial step.
- Only after successfully linking your wallet do you truly own a Mera X account.

06

- Clicking "Connect Wallet" will bring up a page requesting a signature.
- Upon first access to the platform, we need to confirm the signature. Requesting a signature is a security mechanism used to verify user identity.
- Click [Confirm]

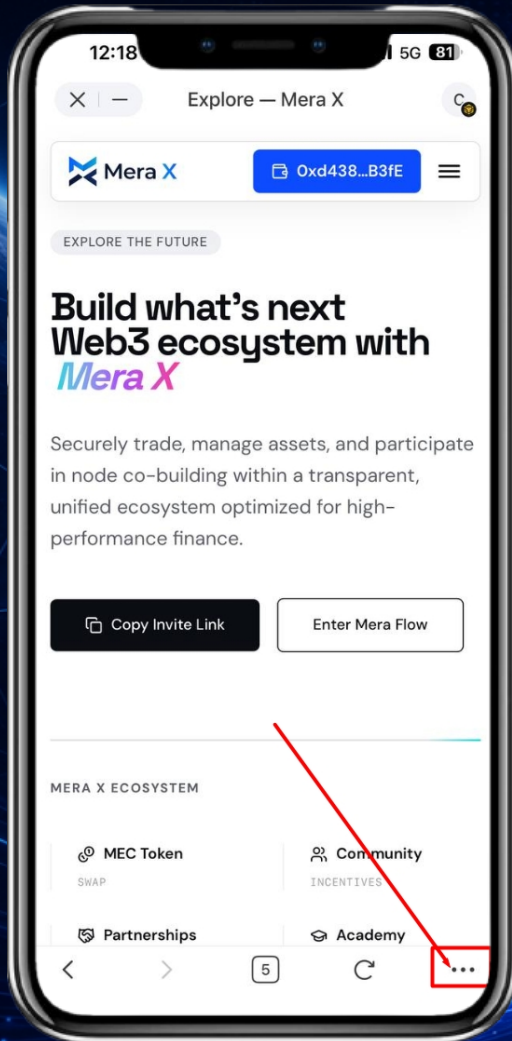

07

- Click [Confirm]
- Click [OK]
- We have successfully obtained a Mera X account.

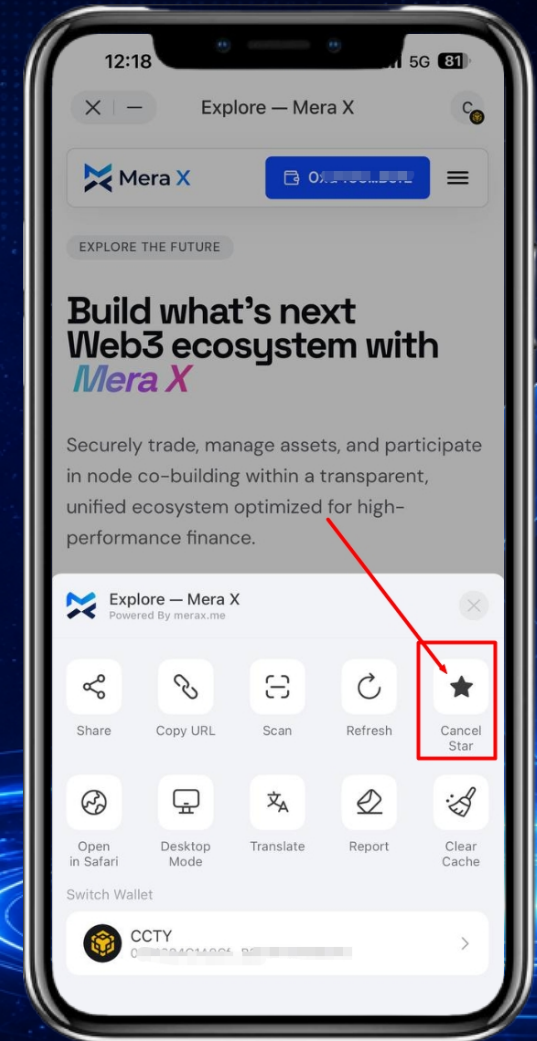

08-Collect DAPP

- Click the [...] in the bottom right corner.

09-Collect DAPP

- Click the star icon

03

Participating in Mera Flow

Community

Governance

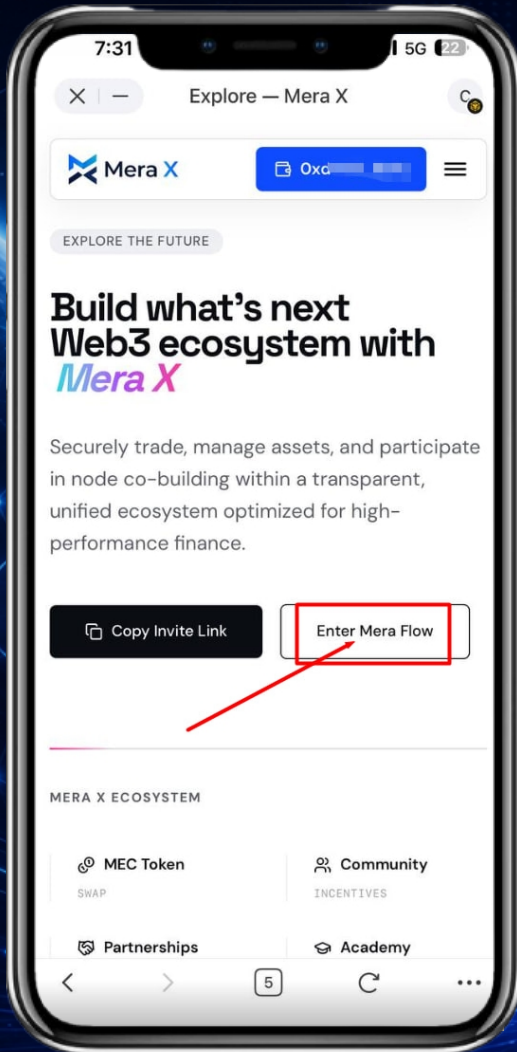

Innovation

Sustainability

Value Flow

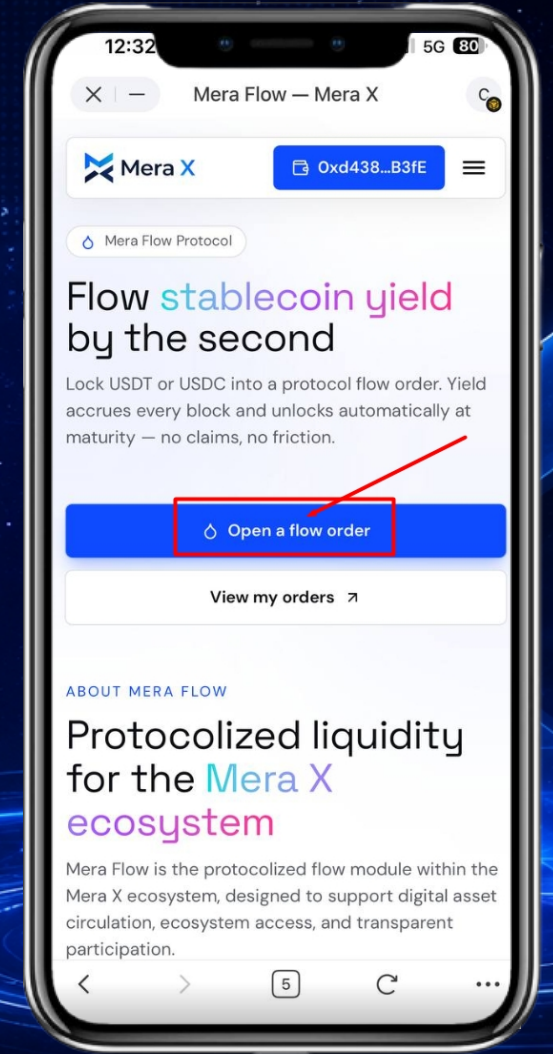

01-Enter Mera Flow

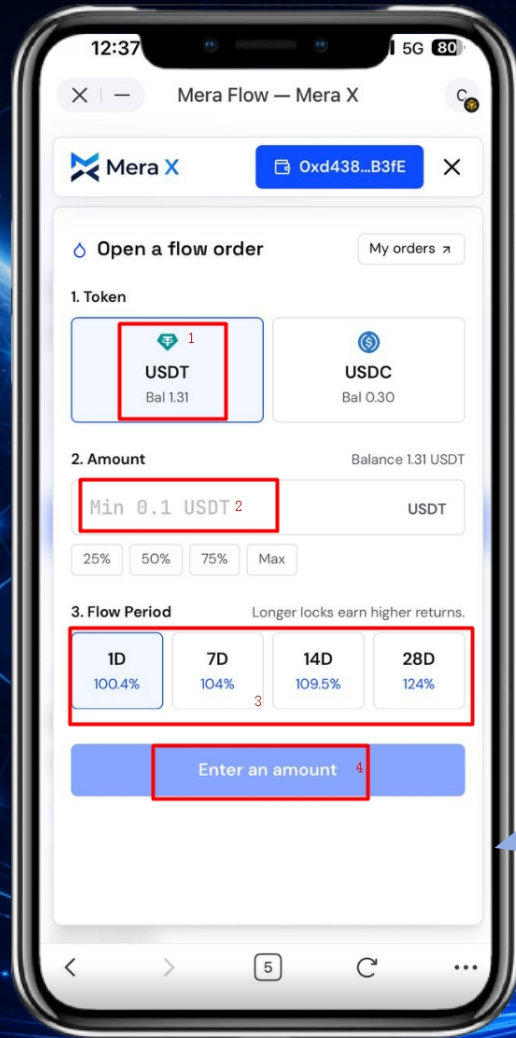

- Enter Mera X and confirm that your wallet is connected.
- Click on the right side to enter Mera Flow.

02

- Click [Open a Flow order]

03-Participating in Mera Flow

- **Choose the cryptocurrency you want to invest in.**

—Select the currency you wish to invest in (USDT and USDC are supported).

- **Enter investment amount**

—Enter the amount of USDT/USDC you wish to invest (minimum investment is 1 USDT/USDC).

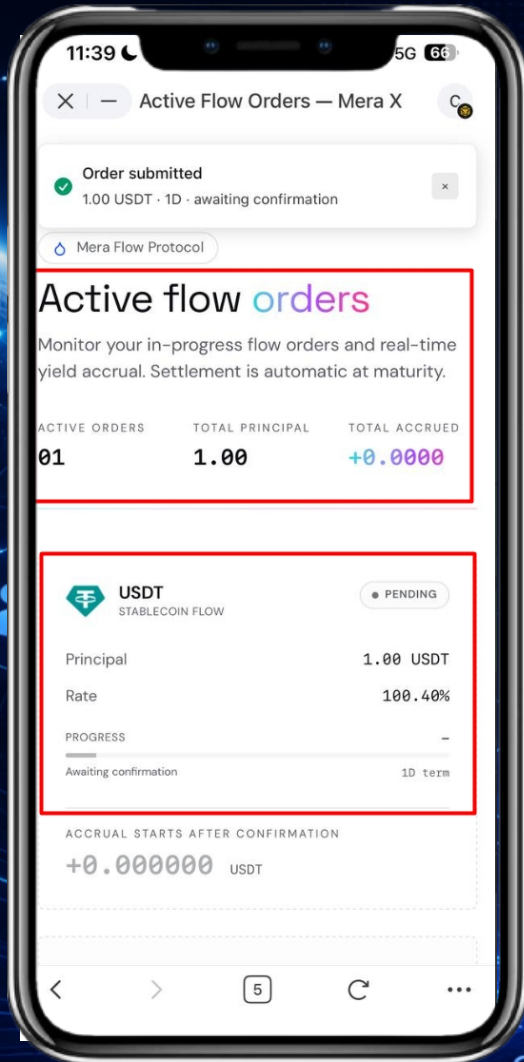

- **Choose investment period**

—Choose the investment period that suits you (1 day, 7 days, 14 days, 28 days).

- **Confirm Investment**

—After confirming the investment amount and term, click the "Confirm" button.

—TP Wallet will pop up a transaction confirmation window, confirm the transaction and pay a small network fee.

04-View your orders

After the transaction is successful, you will receive a Mera Flow order here.

When the order countdown ends, the Mera X smart contract will automatically return your investment principal and profits to your TP wallet, requiring no manual intervention.
